

ZOK has formulated and manufactured gas turbine compressor cleaning fluids since 1980.

ZOK have extensive experience of delivering long-term commercial and environmental benefits to our worldwide customer base via our dedicated global distribution network.

Aviation

ZOK cleans gas turbine compressors in challenging and changeable environments – so it's no wonder that the MoD and civil aviation companies from around the world have been using ZOK for over 35 years to keep their jet engines in peak condition.

Military

Since the early eighties the MoD have relied on the cleaning power of ZOK to keep their rotary and fixed wing aircraft in peak condition.

Oil / Gas

ZOK cleaning products are biodegradable and water-based. Specifically designed for use in ecologically sensitive environments, they are approved by all leading engine manufacturers.

Power Stations

ZOK is an international brand used to clean all types of gas turbine compressors from the smallest unit to the largest power generating engines.

ZOK Demin Water
Free from impurities and contaminants

Demineralised water manufactured using the Reverse Osmosis process.

ZOK Approvals

ZOK is approved by Major Gas Turbine Original Equipment Manufacturers (OEMs), including:

Distribution Network

In 40 markets worldwide ZOK's global stock holding distributors near to you can quickly provide ZOK products. This means any of the 4 GT compressor cleaning solutions are near at hand ready when you need them most.

Gas Turbine Cleaner & Corrosion Inhibitor

ZOK | INNOVATION

Bio-degradable formula for all gas turbine engines

A research & development program ensures ZOK's future as a global leader in the manufacture & distribution of water-based, biodegradable, environmentally responsible gas turbine compressor cleaning fluids. We provide our customers with a competitive advantage in all markets.

ZOK | QUALITY

Approved by all major gas turbine manufacturers

ZOK's specialist personnel guarantees that all ZOK users have access to the best in customer service, ensuring operators have the opportunity to call upon ZOK's expertise to provide product support that makes the difference when it comes to clean, efficient gas turbine compressors.

ZOK | TRUST

Proven cleaning formula endorsed by the British MoD

Approved and used by Major Gas Turbine Original Equipment Manufacturers (OEMs) and leading global operators in all industry sectors.

CEFAS Rating
GOLD

Our Product Range: What's the difference?

ZOK 27 products are pH neutral and contain an effective corrosion inhibitor.

ZOK MX products have a higher pH, for more challenging cleaning requirements, without the added corrosion inhibitor.

ZOK GOLD STANDARD products are designed to meet the requirements of the OSPAR Convention for reduced environmental impact in sensitive marine environments, such as the North Sea. This scheme is administered by CEFAS in the UK.

Availability: Pack Sizes

ZOK products are available in both concentrate and pre-diluted Ready To Use (RTU) form in the following pack sizes:

25 Litre
Can
6.6 US Gallons

210 Litre
Drum
55.5 US Gallons

1,000 Litre
IBC
264 US Gallons
